Skills

JavaScript, Typescript, Python, HTML, CSS, SQL, Node, React, AWS, Docker, Linux

Experience

Software Engineer - Aptive Environmental

11/21 – 04/22

- Analyzed and documented infrastructure to enable smooth transition from a failing agency to internal teams
- Developed HR onboarding platform using React and PHP that significantly reduced nationwide onboarding time
- Mentored junior devs to help build confidence, achieve goals and maximize performance
- Established standards and SOPs for front-end tech stack, code reviews, and weekly stand ups to create consistency and improve collaboration across teams

Software Engineer - Insight Enterprises

05/19 – 11/21

- Developed React app to replace legacy procurement portal supporting \$2b+ in annual online sales
- Built internal sales reporting tool with React, Node, and Docker to replace a failing legacy application
- Led a team through accessibility modernization that brought global web properties to WCAG 2.0 AA standards
- Performed maintenance and debugging support for monolithic J2EE applications that serve jQuery web pages
- Authored extensive documentation on development environments, web accessibility, and legacy applications
- Trained front-end team on OWASP top 10 and evaluation of NPM packages to reduce risk of supply chain attacks

Software Engineer - American Express

10/18 – 05/19

- Performed extensive maintenance and debugging on legacy Java and XML applications
- Developed features within payments portal using React and the AmEx design system
- Achieved 100% code coverage by implementing behavior-driven unit tests with Jest and React Testing Library

Teaching Assistant & Tutor - Trilogy Education

06/18 – 06/20

- Delivered comprehensive web development curricula to 50 students achieving a 90%+ graduation rate
- Tutored 40+ failing bootcamp students by identifying gaps and scaffolding skills to reach proficiency

Combat Medic - US Army

01/07 – 03/13

- Administered trauma care in field, combat, emergency room and combat support hospital
- Performed assessments, triage, and diagnostics in clinical settings using advanced equipment and techniques
- Administered Combat Lifesaver training covering first aid, CPR, and emergency response to 150+ soldiers
- Maintained detailed medical records, documenting care and treatments for ongoing healthcare management

Education

UC Irvine - Cybersecurity Boot Camp

Mar 2025

Galvanize - Web Development Immersive

Dec 2017

Texas A&M - BBA in Marketing (*Magna Cum Laude*)

Dec 2015
